

FUNCTIONS

In our new restaurant in the City Center, Aamanns 1921, we offer unique settings for functions - both private and not.

The restaurant's interior is designed from the inspiration of the church and is simple and clean. The lamps are custom made as well as the bright benches and chairs of leather.

The lower level of the restaurant is a former emergency shelter and in this section you can have private parties*.

The lunch is rooted in the classic Danish tradition added new ideas and well considered combinations of flavour. The evening is based on classic Danish dishes recreated with the focus on great taste, surprises and quality craftsmanship.

To the right, we show you offers for inspiration, however, if you wish it differently, we will find an offer that suits you.
